

Year 7 Art Homework 2

Autumn Term Project: Colour Theory

Follow Up Task: Photography: Found Objects Colour Wheel

- ✓ Look around your home for lots of **different coloured objects**. Try to find different **shapes and sizes**.
- ✓ **Objects arranged in a circular shape**.
- ✓ **Colours in the correct order** – *refer back to your previous work on the colour wheel or look at a colour wheel online to check colour order.*
- ✓ **Photograph from above**.

Hints and tips:

Use the crop tool to neaten up your image before uploading in assignments. All phones should have this feature (or if you are adding your image into a PPT document like I have then use the crop tool in shape format options)

NO PHOTO'S LIKE THIS PLEASE!

Take your photo from 'birds eye view' and try and crop it so you end up with a photo like Mrs Kadu's.

Handy Tip: Start by gathering your objects and colour co-ordinate them so you know how many you have of each. Ideally you need to have the same amount of each colour. I would recommend atleast 5 items of each colour.
