

Y8 ART SELF STUDY TASK

- Produce a tonal pencil drawing based on a suitable 'sealife' image of your choice.
- Please challenge yourself with your choice of image – e.g. turtle shells have a lot of texture, as do fish scales.
- You should aim to fill a full A4 sheet with your drawing – ***please ask for a sheet of plain paper if you don't have any – I don't want to see drawings on lined paper!***
- **EVEN BETTER:** show a wide range of tonal contrast, as well as fine detail and texture.

You need to hand in your drawing on paper please – I don't want any photos of drawings on Teams/email this time.

You could print off the image you used to hand in with your drawing.
