

History Year 10 Recap Recall Homework Task

Examination Question Practise

Answer the following question

How useful is source A for an enquiry into Trench Foot? 4marks RAMC inspecting men's feet on the front line.

Nature, (what is it and how does that make it useful?) Origin, (when was it written and how does that make it useful?) Purpose, (why was it written and why does that make it useful?)	
What does it tell us about blood transfusions? Are there any quotes that can summarise the content of the source?	
What about the historic context, is it what you expect to read? What do you know about blood transfusions or about the period of the war that will help you to make a judgement about how useful the source is?	

Challenge:

Research the Thomas Splint. It was an effective piece of equipment used by medics on the Western Front.
