

Coronavirus risk assessment: Staff working in the academy

Howden School- Autumn Term 2021

Assessment conducted by: G Cannon	Job title: Headteacher	Covered by this assessment: staff, governors, parents, volunteers and visitors.
Date of assessment: October 2021 <i>*Initial Assessment produced August 2020</i>	Review interval: Weekly-	Date of next review: October 15 2021

Risk rating		Likelihood of occurrence		
		Probable	Possible	Remote
Likely impact	Major Causes major physical injury, harm or ill-health.	High (H)	H	Medium (M)
	Severe Causes physical injury or illness requiring first aid.	H	M	Low (L)
	Minor Causes physical or emotional discomfort.	M	L	L

For the purpose of this risk assessment, we have used the term 'coronavirus' to refer to coronavirus disease 2019 (COVID-19).

Schools must comply with health and safety law, which requires them to assess risks and put in place proportionate control measures. Schools should thoroughly review their health and safety risk assessments and draw up plans for the autumn term that address the risks identified using the system of controls set out below. These are an adapted form of the system of protective measures that will be familiar from the summer term. Essential measures include:

- **a requirement that people who are ill stay at home**
- **active engagement with NHS Test and Trace when requested**

An outbreak, as defined, is whichever threshold from the following is reached first:

- ✗ 5 children, pupils, students or staff, who are likely to have mixed closely, test positive for COVID-19 within a 10-day period; or
- ✗ 10% of children, pupils, students or staff who are likely to have mixed closely test positive for COVID-19 within a 10-day period
- ✗ For special schools, residential settings, and settings that operate with 20 or fewer children, pupils, students and staff at any one time: • 2 children, pupils, students and staff, who are likely to have mixed closely, test positive for COVID-19 within a 10-day period

Schools should have in place a reporting procedure for positive cases, and a contingency plan. Additional measures identified (in conjunction with Public Health) must be included as part of the school's infection prevention and control risk assessment as part of ongoing review.

Schools must also familiarise themselves with Notifiable Diseases and the reporting procedure:

<https://www.gov.uk/guidance/notifiable-diseases-and-causative-organisms-how-to-report>

System of controls

We will always

1. Ensure good hygiene for everyone. 2. Maintain appropriate cleaning regimes. 3. Keep occupied spaces well ventilated. 4. Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19

- **Response to any infection**
- 5) engage with the NHS Test and Trace process if required
- 6) contain any outbreak by following local health protection team advice
- Numbers 5 to 6 must be followed in every case where they are relevant.

We will regularly review and update our risk assessments – treating it as ‘living document’, as the circumstances in our school and the public health advice changes. This includes having active arrangements in place to monitor whether the controls are effective and working as planned.

We have outbreak management plans outlining how we would operate if there were an outbreak in our school or local area. **This plan is to revert back to elements our risk assessment last reviewed in June 2021 with students being placed back in bubbles.** These will include: Enhanced cleaning regimes, students moving around school by taking routes out of the building, enhanced testing and the resumption of wearing face coverings. Given the detrimental impact that restrictions on education can have on children and young people, any measures in our school will only ever be considered as a last resort and for the shortest amount of time possible. **On 11/10/2021 we broke through the 10% threshold of cases in school and so we introduced mitigating factors such as: Enhanced cleaning regimes, students moving around school by taking routes out of the building, enhanced testing and the resumption of wearing face coverings in communal areas and on transport to and from school**

If we have several confirmed cases within 14 days, this may be outbreak. We will call the dedicated advice service who will escalate the issue to our local health protection team where necessary and advise if any additional action is required, such as implementing elements of our outbreak management plan.

		<ul style="list-style-type: none"> Clinical studies have shown that children and young people, including those originally considered to be clinically extremely vulnerable (CEV), are at very low risk of serious illness if they catch the virus. The UK Clinical Review Panel has recommended that all children and young people under the age of 18 should no longer be considered CEV and should be removed from the Shielded Patient List, the national database of people considered clinically extremely vulnerable. All children and young people should continue to follow the same guidance as everyone else, which can be found at www.gov.uk/coronavirus. For a very few individual children specific clinical advice may be given and this should continue to be followed. 				
Poor hygiene practice	H	<ul style="list-style-type: none"> Sufficient amounts of soap (or hand sanitiser at 60+% alcohol base where applicable) and paper towels and lidded bins are supplied in infection control areas, bathrooms and kitchens. This will continue until at least January 2022 Sufficient amounts of suitable cleaning agents are available on the premises to sanitise regularly-used areas and surfaces. A good supply chain is secured and their suitability has been checked. Everyone is directed to wash their hands regularly with soap or alcohol-based sanitiser (that contains no less than 60 percent alcohol) and follow infection control procedures in accordance with the DfE and PHE's guidance. Posters are displayed around school to indicate this Everyone is directed, to catch coughs and sneezes in a tissue (Catch It, Bin It, Kill It) and dispose of the tissue in a bin provided. Where students/staff sneeze, they need to wash their hands or clean them with hand sanitiser afterwards Sufficient amounts of soap (or hand sanitiser where applicable) and hand drying facilities and bins are supplied in infection control areas, bathrooms and kitchens. Our guidance to staff and students includes whistle blowing information of what they should do if they see staff or students breaking the guidance. A 	Yes	Site Manager	1.09.21	M

		member of the SLT will be monitoring that systems are being complied with				
Lack of Social Distancing	H	<ul style="list-style-type: none"> Staff and volunteers avoid contact with people who show symptoms of coronavirus, both in and out of academy. All members of school community are regularly briefed on the symptoms to look for: <ul style="list-style-type: none"> High temperature/fever New and persistent cough, for those with a cough this is more frequent Loss or change of smell and/or taste And new Delta variant symptoms of : headache, sore throat and runny nose Where a member of staff must accompany or supervise a pupil showing symptoms of coronavirus, infection control procedures and social distancing arrangements are adhered to at all times. Meeting in well-ventilated areas where possible, such as outdoors or indoors with windows open. In the current situation we are advising the following: In secondary schools, staff are encouraged to continue to work from a 'teacher zone' at distance from students as much as possible. We will not have an enforceable 2m gap in the classrooms but we would encourage staff to work from an area as much as possible. That is not to say we should not circulate or support students but we may need to be mindful of the duration and number. Furniture may need to be rearranged to reduce direct draughts. Blended briefings with the option for virtual or physical briefing sessions. On Monday morning the briefing can be accessed either by being in the staff room, live via TEAMS or recoded for colleagues who are on duty. This will limit the numbers of staff in the staff room which we will operate on 50% capacity. 	Yes	Headteacher	01.09.21	M

		•				
Ill health		<p>Self-isolate straight away and get a PCR test (a test that is sent to the lab) on GOV.UK as soon as possible if you have any of these 3 symptoms of COVID-19, even if they are mild:</p> <ul style="list-style-type: none"> • a high temperature • a new, continuous cough • a loss or change to your sense of smell or taste. <p>You should also self-isolate straight away if:</p> <ul style="list-style-type: none"> • you've tested positive for COVID-19 either according to a PCR test or a lateral flow device test – this means you have the virus. If you get a positive LFD test you should book a PCR test. A negative PCR test will override a positive LFD test. • someone you live with has symptoms or tested positive (unless you are not required to self-isolate – see below if this applies to you) • you've been told to self-isolate following contact with someone who tested positive – find out what to do if you're told to self-isolate by NHS Test and Trace or the NHS COVID-19 app. <p>Students should only self-isolate if they have symptoms or if they get a positive PCR or Lateral Flow Device (LFD) test.</p> <ul style="list-style-type: none"> • If they develop symptoms or get a positive LFD test they should book a PCR test. A positive PCR test cannot be overridden. If a student is asked to get a PCR test as a result of contact with a positive case they may continue to attend as long as the individual doesn't have COVID-19 symptoms 	Yes	Operations Manager	1.09.21	M

Area for concern	Risk rating prior to action H/M/L	Recommended controls	In place? Yes/No	By whom?	Deadline	Risk rating following action H/M/L
		<ul style="list-style-type: none"> Students and staff will be contacted by NHS Test and Trace, informed they have been in close contact with a positive case and advised to take a PCR test. From the autumn term close contacts will be identified via NHS Test and Trace and Howden School will no longer be expected to undertake contact tracing, though school may be asked to support. As with positive cases in any other setting, NHS Test and Trace will work with the positive case to identify close contacts. Contacts from Howden School will only be traced by NHS Test and Trace where the positive case specifically identifies the individual as being a close contact. <p>Individuals are not required to self-isolate if they live in the same household as someone with COVID-19, or are a close contact of someone with COVID-19, and any of the following apply:</p> <ul style="list-style-type: none"> they are fully vaccinated they are below the age of 18 years and 6 months they have taken part in or are currently part of an approved COVID-19 vaccine trial they are not able to get vaccinated for medical reasons. <p>Instead, they will be contacted by NHS Test and Trace, informed they have been in close contact with a positive case and advised to take a PCR test. They do not need to isolate while awaiting the PCR test. We would encourage all individuals to take a PCR test if advised to do so.</p> <p>Staff who do not need to isolate, and children and young people aged under 18 years 6 months who usually attend school, and have been identified as a close contact, should continue to attend school as normal.</p> 				

Area for concern	Risk rating prior to action H/M/L	Recommended controls	In place? Yes/No	By whom?	Deadline	Risk rating following action H/M/L
		<ul style="list-style-type: none"> We may be contacted in exceptional cases to help with identifying close contacts, as currently happens in managing other infectious diseases. We will continue to have a role in working with health protection teams on contact tracing in the case of a local outbreak. Staff and volunteers are informed of the symptoms of possible coronavirus infection. If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia or new DELTA variant symptoms of headache, sore throat and runny nose) , they must be sent home and advised to follow '<u>stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection</u>', which sets out that they must take a PCR test to see if they have coronavirus (COVID-19). Issued guidance to staff and students regarding new update on testing and symptoms that are not related to COVID 19. New DELTA variant symptoms are: headache, sore throat and runny nose Staff only to inform school if test is positive or void and don't have a spare test <u>Instructions for COVID-19 self-test - GOV.UK (www.gov.uk)</u> If a child/colleague who is too unwell to take them self home is awaiting collection, they should be moved, to the Infection Control Room where they can be isolated behind a closed door with good ventilation in Howden School this is the medical room, depending on the age and needs of the child, with appropriate adult supervision. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people. If a student needs to go to the bathroom (this is the disabled toilets in the admin corridor) while waiting to be collected, they should use a

		<p>supervising a symptomatic child/colleague wish to return home to shower/change they will be supported to do so</p> <ul style="list-style-type: none"> Staff can be instructed to go home if they are unwell, even if they would like to stay in school. For other First Aid requirements this will be administered in the pop up office in reception, separate to the Infection Control Room. For staff anxious about the ongoing situation they are encouraged to seek support through the school and Trust wide channels. 				
Spread of infection		<ul style="list-style-type: none"> Keep occupied spaces well ventilated, good ventilation reduces the concentration of the virus in the air, which reduces the risk from airborne transmission. This happens when people breathe in small particles (aerosols) in the air after someone with the virus has occupied and enclosed area. When your school is in operation, it is important to ensure it is well ventilated and a comfortable teaching environment is maintained. These can be achieved by a variety of measures including: <ul style="list-style-type: none"> mechanical ventilation systems – these should be adjusted to increase the ventilation rate wherever possible and checked to confirm that normal operation meets current guidance and that only fresh outside air is circulated. If possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background ventilation and opened more fully during breaks to purge the air in the space). Opening internal doors can also assist with creating a throughput of air natural ventilation – if necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so) The 	Yes	Operations Manager	01.09.21	M

Area for concern	Risk rating prior to action H/M/L	Recommended controls	In place? Yes/No	By whom?	Deadline	Risk rating following action H/M/L
		<p>Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak and CIBSE coronavirus (COVID-19) advice provides more information.</p> <p>To balance the need for increased ventilation while maintaining a comfortable temperature, consider:</p> <ul style="list-style-type: none"> • opening high level windows in colder weather in preference to low level to reduce draughts • increasing the ventilation while spaces are unoccupied (for example, between classes, during break and lunch, when a room is unused) • providing flexibility to allow additional, suitable indoor clothing – for more information see school uniform • rearranging furniture where possible to avoid direct draughts. Heating should be used as necessary to ensure comfort levels are maintained particularly in occupied spaces. Ensure individuals wear the appropriate clothing • When rooms are empty (between lessons/break/or when not timetabled or when staff are working on their own and feel able to do so) open the windows/vents fully to purge the space • We have asked staff in the RAs to support us by, as they leave a room to fully open the window – in our efforts to keep each other safe • Facilities and cleaning teams are being asked to open windows/vents fully in the morning and evening until the buildings are locked to purge also – in some of our newer buildings the vents are being left open all night to purge (this would be part of the usual ventilation system) • The site team will ensure that the rooms are sufficiently aired at the start and end of each day. This means that before the school day the windows will be opened for at least 1 hour before and at the end of each working day. • During the day if the room is not being used i.e. over lunch or break then some of the windows can be fully open to allow more ventilation. When students return to the room the windows can be closed slightly. Ventilation must be provided but a balance should be made between that and a comfortable working temperature 				

Area for concern	Risk rating prior to action H/M/L	Recommended controls	In place? Yes/No	By whom?	Deadline	Risk rating following action H/M/L
		<ul style="list-style-type: none"> • All classrooms will still have hand sanitisers and all main offices will have hand sanitiser available • Staff are encouraged to transfer information digitally, e.g. via email, and to avoid transferring information in paper format. • Everyone is instructed to monitor themselves and others and look out for similar symptoms if somebody has been sent home with suspected coronavirus. • Staff and volunteers are vigilant and report concerns about their own, a colleague's or a pupil's symptoms to the Operation Manager. • Open high-level windows at all times whilst in the room – avoid low level windows being open if the temp is cold. • When rooms are empty (between lessons/break/or when not timetabled or when staff are working on their own and feel able to do so) open the windows/vents fully to purge the space • We have asked staff in the RAs to support us by, as they leave a room to fully open the window – in our efforts to keep each other safe • Facilities and cleaning teams are being asked to open windows/vents fully in the morning and evening until the buildings are locked to purge also – in some of our newer buildings the vents are being left open all night to purge (this would be part of the usual ventilation system) • We are also enforcing open doors (inc. where possible external doors) though obviously not fire doors, to ensure a through draft wherever possible • While maintaining a comfortable workplace temperature. Opening higher-level windows is likely to generate fewer draughts. https://www.hse.gov.uk/coronavirus/equipment-and-machinery/air-conditioning-and-ventilation.htm#how_to_improve HSE guidance updated 31 December 2020.
